

# KIT CAREER FAIR

The job open-air directly on campus  
May 19-20, 2026 | 12-5 p.m.

## WHAT MAKES US SPECIAL:

- **personal:** Encounters on equal terms
- **relaxed:** Job event with an open-air atmosphere
- **At the heart of the action:** right in the middle of the campus of a top-tier university
- **Sustainable:** reusable materials, energy savings, reduced traffic, vegetarian and vegan food

## WHAT OUR EXHIBITORS SAY:

“  
*One highlight for us is the excellent organization, but also the huge number of students who visited the booth – this is the best-attended fair we have been to so far! We received many specific inquiries and expect to receive a number of applications. We would be happy to come back!*

Janine Gorgas, DCON GmbH

“  
*We received many applications immediately after the KIT career fair, which resulted in two internships. We also noticed lasting success: the fair brought us to the attention of many students, and even months later, they were still applying to us for practical semesters, for example.*

Jana Heller, Atlas Copco IAS GmbH

“  
*The event is very well organized and offers us great visibility. The conversations are really substantive, yet relaxed thanks to the outdoor atmosphere. The KIT Career Fair is a great opportunity to network and present ourselves as an employer. The KIT Career Fair is a great opportunity to network and present ourselves as an employer.*

Rita Rohmfeld, Schaeffler AG

“  
*The KIT Career Fair is a fixed date in our trade fair calendar. We greatly value the direct exchange with motivated students – especially those from scientific and technical disciplines. The fair offers an excellent opportunity to inspire young talent for our company.*

Torben Götz, Adolf Würth GmbH & Co. KG

# BASIC STAND
